It's a grow-with-me seat for baby that's soothing, entertaining, and has a touch of technology, too. For newborns, it's a deep, comfy seat that reclines to three different positions and has a soft head support. The removable toy bar adjusts to three different positions, with dangling activity toys always within reach and a large mirror reflecting baby's smiling face – because everybody knows baby is very entertaining to watch! If you insert and lock your iPad® into the mirror's case, the visual display provides another way to stimulate and engage baby while protecting your device from baby's sticky fingers and preventing unintentional navigating to other apps . Download our free apps for your iPad created especially for use with this product (iPad® device not included). Apps for the youngest baby feature soft, soothing sounds and nature scenes, black-and-white images and high-contrast patterns that help develop eye-tracking skills. As baby gets older, age-appropriate apps introduce letters, numbers and more through sing-along songs, sounds and friendly characters. Visual content in the apps times out after 10-12 minutes, ending on the home screen, to help you keep track of how long your child is viewing the interactive media.

Weight Limit: 40 lbs. (18 kgs)

Features

- Adjustable toy bar has dangling activity toys that are always within reach, and a large, 7" mirror that's more than entertaining as it reflects baby's image – it's also beneficial for facial recognition and developing a sense of self.
- Option to insert your iPad® into the mirror's case for another way to stimulate and engage your child.
- Toy bar with iPad holder removes completely when you want a traditional seat.
- Download free apps that were created with the guidance of child development experts. Visual content and sounds are slow paced and time out after 10-12 minutes.
- Activity toys are fun on their own and are also interactive with the apps, prompting fun sight and sound surprises for baby.
- Adjustable, three-position seat recline for comfort and extended use through toddler years.
- Three-point restraint for safety.
- Seat pad and head support remove for machine washing.
- Durable case for all generations of iPad®, excluding iPad® mini.
- iPad® device not included.
